

Subdivision Conduit Requirements

Corn Belt Energy has identified the following McLean county subdivisions that will require conduit for all service installations, primarily due to difficult terrain and restricted working space as a result of landscaping and/or zero lot line development.

This requirement is for the convenience of contractors bidding work in these areas as well as for Corn Belt Energy in scheduling work.

Evergreen Village	Links at Ireland Grove
Fox Hollow	Prarire Gardens
The Grove on Kickapoo Creek	
Kelly Glen	

Conduit is also required in all zero lot line developments, including:

Blackstone	Harvest Point	Royal Links
Eagles Landing	Heartland Ridge / Heartland Village	Tipton Trails
Eagle View South / Villas	Ireland Grove	Vineyards / Chateau Estates
Fox Hollow	Park West
