The member must contribute 100% of the cost of the switch. The cost of the switch may be added to the electric bill, spreading the cost over a fifty-month period.

The interruption may be up to four hours in duration during a disconnect period. The number of interruptions will be limited to a maximum of 10 events per year.

Members are required to sign a contract for interruption by June 1st. Members will receive the interruptible rate for all usage beginning June 1st. After the June 1st deadline, members submitting contracts will not be eligible for the interrupted rate until the following June 1st.
