

POWERLINE

NEWSLETTER FOR CO-OP MEMBERS OF CORN BELT ENERGY

EDITION: JUNE 2020

Shop local and save with Co-op Connections

Just like you, Corn Belt Energy has deep roots in our community. Those roots are strongly supported by the small businesses that boost our local economy.

One of the ways that your co-op supports small businesses is through the Co-op Connections Program. It's a free benefit for Corn Belt Energy members. With the card you can save on lots of things, from oil changes to groceries and just about everything in between. What's more, Co-op Connections is accepted at nearly 24,000 businesses nationwide.

In addition to the nationwide businesses, Corn Belt Energy cooperative members can receive discounts at local businesses by participating in the free Co-op Connections program.

Now more than ever, we understand the challenges that local businesses within our community are facing due to the COVID-19 pandemic. This is why we are asking our members to support local businesses by shopping local. The next two pages contain over 85 local Co-op Connections offers and more being added to the smartphone app every day.

Co-op Connections makes saving easy with offers and discounts you can redeem directly from your mobile phone. Simply show your phone at the participating business and save!

But that's not all; there are many more opportunities to save! The Co-op Connections program includes a pharmacy discount feature. By using this, you will be able to receive

10% - 60% discount on prescription drugs at over 60,000 national and regional pharmacy chain stores including CVS, Walgreens, Walmart, Target and many more.

Whether you are running errands or looking to get your hair cut, remember to shop local and save – all you have to do is show your smartphone app at participating retailers! It's just another member benefit brought to you by Corn Belt Energy.

How do I download the app?

Search "Co-op Connections" in the App Store or Google Play store and download our free Co-op Connections smartphone app.

Joe Law
Journeyman Lineman

How long have you worked at Corn Belt Energy?
4 years

What is your role at Corn Belt Energy?
I am a journeyman lineman that works along side other journeymen in the northern region replacing, revamping, and building new line to ensure reliable power to our members. We also respond to outages after hours as needed for the members of Corn Belt along with providing assistance to other cooperatives both in and out of the state.

What aspect of your role do you enjoy the most?
The role I enjoy most is the member interaction we have while working, and during outages. It's nice to constantly hear how genuine our members are and know that the members truly appreciate the work we do for them.

If there is one piece of advice that you could share with our members, what would it be?
If there would be any advice that I could offer our members, I think I would want them to know that Corn Belt gives us some of the best technology to work with. When it comes to the safety aspect of our job I feel we hold ourselves to the highest standards. I would want the members to know that we do what we do because we all truly care, and just because we may not be working directly outside their home or business we could be working on the problem that may possibly be miles away.

Corn Belt Energy puts SAFETY FIRST. What safety tip would you share with our members?
I'd remind both adults and kids that electricity can't be seen nor heard. You can't look at a line and know for certain that it is de-energized. If by chance a person was to encounter downed power lines on the ground or their car or wherever to stay clear of them.

What are your hobbies and outside interests?
I enjoy spending time with my wife and kids. I coach their baseball and softball teams. We love to camp, love spending time out doors riding dirt bike and 4 wheelers, and going to the races.

Who or what inspires you?
My wife and kids are my inspiration. They are a constant reminder to do what's right, not just at work but at life in general. They are my biggest reason to want to come home every night with all my fingers, all my toes and in one piece.

Is there anything else that you would like to share with our members?
It's easy to come to a job when you completely trust the people you work with and you know they are there for the same reasons you are. At Corn Belt, we know as employees that we are extremely lucky because we are truly appreciated, by our employer and also by our members.

Due to the Coronavirus (COVID-19) pandemic, Corn Belt Energy's Board of Directors has canceled the organization's 2020 annual meeting. The Corn Belt Energy annual meeting was scheduled for Friday, June 19.

Corn Belt Energy cancels 2020 Annual Meeting

Due to the Coronavirus (COVID-19) pandemic, Corn Belt Energy's Board of Directors has canceled the organization's 2020 annual meeting. The Corn Belt Energy annual meeting was scheduled for Friday, June 19.

"This is not a decision that our Board took lightly," explained Rae F. Payne, Corn Belt Energy Board Chairman. "The health and safety of our membership is of the utmost importance and we greatly appreciate our member's understanding in our choosing to uphold one of our seven Cooperative Principles — Concern for Community."

The cooperative is following the COVID-19 pandemic situation very closely and will continue to monitor

recommended practices as outlined by the Centers for Disease Control and World Health Organization, as well as state and national officials.

"We want our members to know that Corn Belt Energy's critical business operations continue without interruption," says Don Taylor, Corn Belt Energy President & CEO. "We're not only looking out for the best interest of our members and the public but also taking careful and necessary steps to ensure the health and well-being of our employees so we can continue meeting the needs of our members through this period of uncertainty."

Corn Belt Energy's commitment to our members and our community remains strong and our employees,

in all areas of our cooperative, continue to work to provide safe and reliable electricity while properly social distancing. Corn Belt Energy's member account representatives are also available to assist members who are impacted by the pandemic situation. Those members are asked to reach out to Corn Belt Energy if they need to make payment arrangements or for financial assistance information.

Members with questions and concerns are encouraged to contact Corn Belt Energy at 800-879-0339.

For more COVID-19 updates and financial assistance information, visit: www.cornbeltenergy.com/covid19
